THE TECH

VOL. XXVII. No. 36 BOSTON, MASS., MONDAY, DECEMBER 30, 1907 PRICE THREE CENTS.

COPLEY HALL, PROPOSED TEMPORARY WALKER MEMORIAL.

USE OF COPLEY HALL AS A TEMPORARY WALKER MEMORIAL SUGGESTED BY THE TECH.

PLAN PROVIDES FOR ABOLISHMENT OF PRESENT UNION.

Copley Hall Would Be Most Suitable Place For a New Union, Lunch and Meeting Rooms.

After carefully considering the pressing need of larger accomodations for student affairs at the Institute, the Board of Editors of The Tech passed the following resolutions:

Whereas: A wholesome demand is manifest among the past and present students of the Massachusetts Institute of Technology for suitable accomodations for the development of the social side of student life such as will further a loyal, manly, democratic spirit among the undergraduates; and

Whereas: The Walker Memorial building, which was designed to satisfy this demand, cannot be built until the Institute has been established on a permanent site which final establishment will require at least three years after the site has been decided upon; and

Whereas: During this interval the demand for convenient and adequate student accomodations can suitably be satisfied by the use of a building owned by the Institute, a building situated on Clarendon Street and known as Copley Hall; and

Whereas: The use of this building by the students seemingly can be arranged without the least financial loss to the Institute;

Resolved: By the Board of Editors of The Tech that they hereby suggest that

(Continued on page 2.)

The so-much-talked-about, so-much-needed Walker Memorial building can become at least a temporary fact at the beginning of next year if the Corporation of the Institute and the Walker Memorial Committee take the proper action.

The place where this temporary Memorial can become an actuality is the Copley Hall building on Clarendon St., just in the rear of Engineering Buildings A and B and the Pierce building.

This building is owned by the Institute and is leased to the Copley Society or the Boston Art Student's Association. This lease expires on September 1st, 1908, a month before the opening of the next school year.

The Institute receives for the leasing of this building about $5,000 per year This amount is variable, no definite statement being given by the various authorities. As is pointed out elsewhere, the Institute is not in a position to lose the rent from the building, but if the building is used as a temporary Walker Memorial, it can be rented by the committee in charge of this fund.

It is understood that the matter of taking over this building has been discussed by the authorities this year, but was laid on the table because of the attendant expense and the unsettled con-

(Continued on page 3.)

SUGGESTION ENDORSED BY INSTITUTE COMMITTEE.

RESOLUTIONS PASSED.

Calls Class Meetings For Consideration

The plan of using the Copley Hall building for a temporary Union or Walker Memorial until such time as the Institute moves, which had been suggested to the President of the Institute Committee by the Board of Editors of The Tech, was brought up at a special meeting on Friday noon before the Christmas vacation. The matter was thoroughly discussed and the following resolutions were passed.

To the Faculty and Students of the Massachusetts Institute of Technology:—

Whereas: It has been suggested that the building known as Copley Hall, which is owned by the Institute of Technology, be used as a gathering place for the students, with a lunch room, meeting rooms for the general organizations, and the like, to supply more fully the demands which the present Union is so inadequate to meet, and to serve as a forerunner to the Walker Memorial Building; and

Whereas: The need of such a building, and the suitability in every respect of this particular building seem very apparent to the Institute Committee;

It is resolved that the Institute Committee heartily endorses the plan for so utilizing Copley Hall, and that copies of this resolution be presented to the Faculty and published in The Tech.

Presented for the Institute Committee by Harry A. Rapelye 1908, Pres.

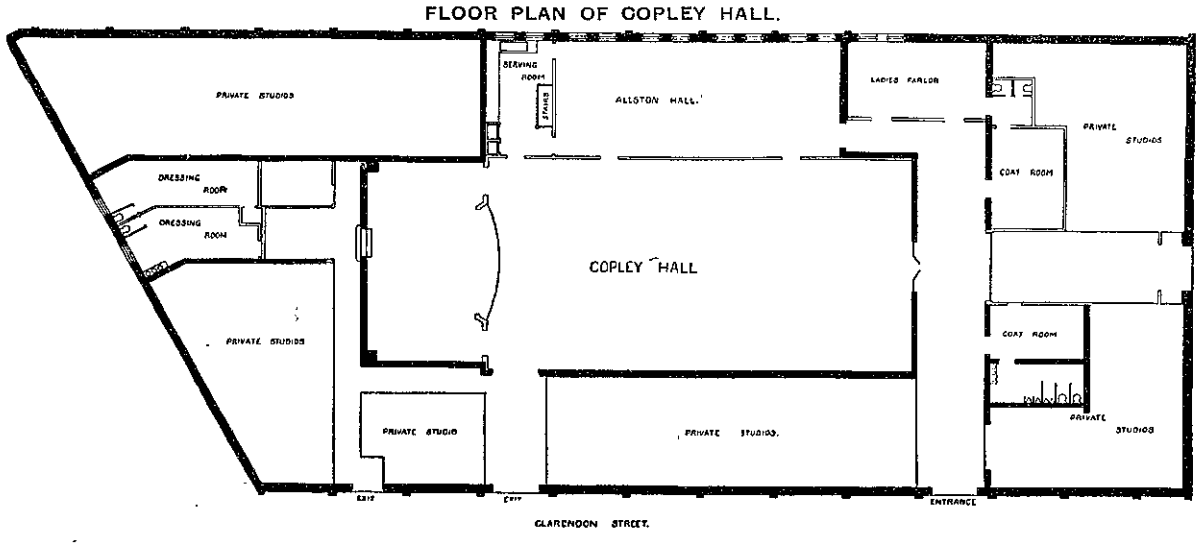
FLOOR PLAN OF COPLEY HALL.



MAJOR BRIGGS OUTLINES DUTIES OF NEW A. A.

TO REMAIN SUBSIDIARY TO GRADUATE ADVISORY COUNCIL.

Appropriations Recommended for Basket Ball, Hockey and Track.

Major Briggs addressed the Athletic Association Friday afternoon, and stated what he considered the proper relations between the Athletic Association and the Advisory Council. Regarding the powers of the A. A. he made the following statement:—

"The A. A. should remain subsidiary to the Advisory Council. The A. A.

MAJOR FRANK H. BRIGGS.

was designed with the idea of taking detail work from the Advisory Council. Managers and Captains should look to the A. A. for sanction of their actions, but everything done by the A. A. must be submitted to the Advisory Council. The deposition of managers should be decided by the Advisory Council.

"The Advisory Council wants to know what the A. A. considers a fair thing in money matters; but the Advisory Council is to make the final decision. I want to see the Athletic Association put on a higher, more authorative plane, than it has been in the past. If matters are run in the proper way there will not be the interference from the Advisory Council that there has been in the past.

"Steer clear of fraternity combinations and other scheming. We want a better understanding between the A. A. and the Advisory Council than there has been in the past."

Major Briggs also issued the statement that the Advisory Council owes $500 and has about $160 on hand. The cause of this is that the Tech Show last year turned in about $500 less than usual.

Manager Whitmore gave statistics of basket ball finances as follows:—Expended for suits $17.50; for shoes $12.00; for basket balls $9.75; for stationary and postage $11.80; for Dartmouth trip $67.00 (guarantee $40).

Received from Major Briigs on loan $40. Probable income from trips—Harvard $5.00; Tufts $5.00; Williams $2.00; Lowell $7.00; Brown $5.00; N. H. State $5.00; Holy Cross $7.00; New York trip $10. He figured that about $46.00 would cover the seasons expenses, and a motion was passed as follows:—That the A. A. recommend a $50 appropriation for basket ball, to the Advisory Council.

Other business transacted was as follows:—a $5.00 appropriation for the hockey team was recommended; authorization to pay the entries for the Park Sq. meet and a $10 appropriation was granted to the track team; Mgr. Moses of the Fencing Team was recognized as the official M. I. T. representative at the Intercollegiate Fencing Association Meeting at New York, Jan. 4; the basket ball schedule was approved; a committee of three was appointed to pass on excuses for absence at meetings—the committee is G. T. Glover, J. T. Tobin, C. W. Gram.

Subscriptions within the Boston Postal District and outside of United States must be accompanied by 86 cents.

Monday, December 30, 1907.

FOR DISCUSSION.

"It is better to discuss a question without settling it, than to settle it, without discussing it." Matthew Arnold.

For a good many years the feeling has grown among the students and alumni that Institute men have no good opportunity to meet each other and to develop their social and practical sides. Although there are fraternities and clubs at Technology, they give social opportunity to a limited number of men and are apt to have narrowing and snobbish tendencies; and although the present Union has been extremely helpful as a broadening influence it is, as President Noyes has pointed out, "miserably inadequate as the social gathering place of our fourteen hundred students."

To encourage the outside activities of the students, the Walker Memorial movement was started. Besides containing a gymnasium, the Memorial building was to include provision for other social objects. According to the plans described in Technique 1903, "A spacious and attractive memorial room, seventy by forty-five feet, with handsome open fireplace, afternoon sunshine and comfortable chairs should embody welcome and cheer to the individual student and be a worthy scene for social and ceremonial gatherings. The adjoining southeast corner will contain a kitchen and serving room, a library, and perhaps a music room."

This Walker Memorial movement, fine as its effect will be, has been hanging fire for over eight years due to the agitation in regard to moving the Institute to a new site. Also, at least three years, and maybe as many as ten, will elapse after the Corporation decides on a permanent site, before the Institute can finally leave its present buildings.

It seems highly desirable that, during this time, ample provisions should be made for student activities. With the need of a large Union and suitable meeting rooms in everyone's mind, it appears providential that the lease on Copley Hall, a building owned by the Institute, runs out before the beginning of our next school year. This hall would completely fill the students' urgent needs, supply the Institute with much needed room, and in every way answer for the four or five years to come as a temporary Union and Walker Memorial.

At present the Institute receives some revenue from the renting of Copley Hall, but it is hoped that by renting some of the studios, by student entertainments and perhaps by some contribution from the income of the Walker Memorial Fund, the loss of this revenue can be made up to the Institute.

Since the use of Copley Hall will mean so much to the students and cost the Institute so little, it is sincerely hoped that the Corporation can arrange to utilize it as a large Union, a sort of temporary Walker Memorial, with provisions for student welfare worthy of the reputation of the Institute in other directions.

GIFTS FOR ALL.

Tech Xmas Tree a Success.

At the Technology Christmas tree entertainment at the Union Lyman A. Underwood gave a most interesting talk on Florida. The talk was accompanied by slides showing the animal and vegetable life of various districts.

There were about 50 students present, all receiving useful gifts. Refreshments were served after the gift-giving.

Among those present were: President Noyes, Dr. and Mrs. Dewey, Prof. and Mrs. Pearson, Bursar Rand, Prof. and Mrs. Sedgewick, Mrs. Rogers, Mrs. Sawyer, and Treasurer Francis R. Hart. To. Mrs. Rand, Mrs. Dewey, Mrs. Pearson, Mrs. Sawyer and Mrs. Sedgewick and others is due the arrangements of the tree and the refreshments.

READING BY PROF. BATES.

Professor Arlo Bates read Dickens "Christmas Carol" at the Christmas Eve entertainment given by the Boston Young Men's Christian Union. Christmas music was furnished by the Commonwealth Male Quartette. Among the three hundred present were a number of Tech men.

RESEARCH CHEMISTS DINE.

Menu Synopsis of Unmusical Comedy.

The third annual Christmas dinner of the Research Laboratory was held the Tuesday before vacation at the Technology Club. On the menu card was printed the synopsis of an unmusical comedy in three acts in which the various parts were assigned to the men present. The names of the characters and the situations in the play were humorous allusions to laboratory affairs.

SUGGESTED BY THE TECH.

(Continued from page 1.)

this Copley Hall be used, after the expiration of its present lease on September 1, 1908, to serve as a temporary substitute for the Walker Memorial building, and that they hereby urge the Walker Memorial committee, the alumni, and the students through their organizations, to support this suggestion so that it may have weight with the Corporation in their action as regards Copley Hall.

The Board of Editors, The Tech

SUGGESTION ENDORSED.

(Continued from page 1.)

The Institute Committee voted to call meetings of the four undergraduate classes, in order that the classes might express opinions on the proposed plan of using the Copley Hall building. The meetings will be in Huntington Hall at 1 o'clock on the next four days. The Seniors will meet today, the Juniors on Tuesday, the Sophomores on Wednesday and the Freshmen on Thursday. The classes will be addressed by the respective Presidents and members of the Institute Committee.

The Institute Committee called upon all undergraduate organizations to express opinions on the subject. The committee also appropriated enough money for an extra edition of this number of The Tech to be given away at the various class meetings in order that everyone might know about the proposed plan.

SENIOR PORTFOLIO COMMITTEE.

—Nominations for senior portfolio committee close January 1st, 1908, at 4 P. M. Nominations must be signed by ten members of the class and handed to R. W. Ferris, B. L. Gimson, or H. W. Flaherty, or left at the Cage for the portfolio election committee.

USE OF COPLEY HALL.

(Continued from page 1.)

dition of the question as to the site of the Institute.

That the Institute needs more room is sharply brought to mind by the complaints from the various departments, especially the mechanical engineering department, of the crowded condition of the laboratories. Course II has secured a big Curtis turbine, but has been in a quandary where to put it. A move was made to place the big turbine in the lunch room, but it was not thought best to abolish that very necessary eating place.

If the Copley Hall building could be secured for the use of a temporary Walker Memorial with a union lunch room, or Memorial dining room, both the lunch room in Pierce and the present Union lunch room could be abolished, or rather combined into one big dining establishment with its headquarters in Copley Hall.

The situation of the Copley Hall building makes it an ideal place for a union. As can be seen from the map of the Institute buildings and surroundings, the Copley Hall is practically at the center of the student population of the Institute.

The entrance of the Copley Hall is a very short distance from the entrance of Lowell, A, B, C, and Pierce while it is not more than 800 feet from the entrances of Walker and Rogers buildings.

Copley Hall is well fitted to take the place of the Union. It contains a wide entrance hall on each side of which open doors to the private studios shown. The one on the right, entering, is occupied by the New England Woman's club while the larger studios on the left, extending nearly the full length of the hall are occupied by the Copley Society. Just beyond the double doors on the right is a large lavatory and coatroom. On the right beyond is a promenade room with raftered ceiling, well fitted up for a general smoking room. Beyond on the right is a good sized coatroom, in back of which is a large studio, now used as a smoking room. At the end of the hall is the ladies parlor, well fitted up at present.

In turning into the hall the size is striking, and truly it is a splendid room for a memorial or union room. The dimensions are 90 ft. by 45 ft. It has a high ceiling with windows covering nearly the whole ceiling. The hall has been beautifully fitted up with trusses and grill wood-work over the skylight windows. There are numerous electric lights. The walls are covered with a Japanese grass paper. This covering was

placed on the walls for the Whistler exhibition, and is in good condition. It is hardly probable that it will have to be renewed.

At the end of the building toward Lowell there are two large studios, one in the back and one in the front. A separate entrance is provided for the studios and for the small studio in the front. There are a number of small rooms between these large studios, now used for dressing. There are several lavatories attached.

The whole of the upper story of the building, which is the same size as the ground floor except for the big hall, is taken up with studios, lighted in greater part by skylights.

The stage in the Copley Hall is large enough for a cast of sixty persons at a time. Its dimensions are 43 feet wide and 25 feet deep. There is a good supplay of drops and stage machinery with a wide back entrance.

Allston Hall just back of the big hall is 60 feet by 25 feet. This hall is lighted from the back and has direct communication with the big hall though it can be shut off very easily. At the end of Allston Hall is a serving room and kitchen, well equipped with tables, a big range and sinks.
